# INTRODUCING VETPOST

VetPost is our home delivery service offering you an affordable, convenient and reliable way for you to ensure your pet is protected against the right parasites with the right product.

With VetPost we deliver your pet's flea, tick and worm treatment direct to your door, addressed to your pet exactly when it is due so you never need to miss a dose again, meaning your pet is protected all year round.

# THE IMPORTANCE OF FLEA, TICK AND WORM TREATMENT

- Your pets should be treated for fleas, ticks and worms throughout the year to protect them from these parasites and the diseases they can transmit.
- With many products to choose from, knowing what solution is best suited to your best friend can be difficult.
- Your vet will advise and prescribe the most appropriate treatment plan for your pet.
- Remember, the cost of protecting your pet can drastically outweigh the cost of managing an infestation in your home.

## REGISTER

Visit us in practice and register for a monthly delivery subscription for 12 months. saving you multiple trips throughout the year.

## RECEIVE

Each delivery will have our practice branding on the box so you know what it is and it will be addressed to your pet.

## REPEAT

Every 12 months, we'll send you a reminder to let you know when your prescription is coming to an end.
